

**Representative Viewpoint 16 (Left) - B5111 highway to north of Llannerch-y-medd**

**Existing View**

This view is representative of motorists using the B5111 travelling between Llannerch-y-medd and Rhosybol in the north-bound and southbound directions and is located on the western boundary of Maen Hir South 'A'. The foreground view along the highway is partly enclosed by a drystone walling and hedgerows. The roadside hedgerow partly obscures views to the left and centre, before geometric fields on rising land form the midground to the centre and right of the view. A patch of woodland sits on the hilltop which screens longer distance views. To the right of the view, a hedgerow extends downhill to meet the property at Llwydiarth Lodge with the Bryn Hyfryd property visible opposite.

**Operation Phase**

Maen Hir South 'A' would be visible beyond the intervening hedgerows in the midground to the centre and right of the view. There would be glimpsed views of Field 142 just above Field 143 to the centre of the view. The proposed 132kV Substation would be partially visible within filtered views through the existing trees towards the centre of the view. During the operation phase, the scale of effects are likely to be **Medium** (adverse) reducing to **Small** (adverse) once the embedded mitigation has established.
