

Representative Viewpoint 18 (Left) - Public footpath LLANNERCH-Y-MEDD|25/002/1 near Pen-y-Foel and Llwydiarth Tower

Existing View

This viewpoint on Pen y Foel is within Maen Hir South 'A' and is representative of walkers using public footpath 25/002/1 near Llanerch-y-medd. The foreground to the right and left of the view comprises large pastoral fields bordered by hedge-rows and scrub vegetation. A derelict property is visible in the foreground. From the left to the centre right of the view, the landform falls away to reveal long distance views to the north. To the left of the view, the northern edge of Llanerch-y-medd can be seen with isolated properties and farms dispersed through the landscape. Llyn Alaw is partially visible in the midground view to the left centre with Mynydd Mechell perceptible in the distance. A pocket of woodland surrounds the property at Llwydiarth Fawr in the midground view to the centre left with Parys Mountain visible to the right. Dulas Bay is perceptible in the background to the centre right of the view before the land rises up towards Mynydd Bodafon. Longer range views to the right of the view are foreshortened by Pen y Foel.

Operation Phase

The viewpoint sits within Field 170 (mitigation and enhancement area) which is visible in the foreground to the left, right centre and right of the viewpoint. To the left centre, Fields 169, 160 and 159 can be seen at close proximity. To the centre left, the eastern section of Field 169 can be seen ahead of Field 161 and Field 152 (mitigation and enhancement), while Field 145 is a potential area for the proposed 132kV Substation. To the right of the woodland at Llwydiarth Fawr in the centre right of the view, much of the eastern area of Maen Hir South 'A' is visible with the south-east area screened by intervening topography. Fields 132, 134, 153, 162 and 163 are visible at close proximity within elevated views from this viewpoint. During the operation phase, the scale of effects are likely to be **Large** (adverse) prior to and once the embedded mitigation has established.
