

Approximate extent of Maen Hir South 'B'

Representative Viewpoint 24 (Left) - B5111 highway near layby and Pont Glan-rhyd between Llannerch-y-medd and Rhosmeirch

Existing View

This view is representative of motorists using the B5111 highway between Llannerch-y-medd and Rhosmeirch to the west of Maen Hir South 'B'. To the left of the view is a hedgerow, treebelt and drystone walling. The treebelt extends away from the view, which leads to a block of woodland which can be seen towards the midground view. To the left and centre of the view, medium-sized pastoral fields are visible beyond the roadside drystone walling. The fields beyond within Maen Hir South 'B' are characterised by rough pastures and rocky outcrops. To the right of the view there are long-distance views of the Snowdonia mountains within Eryri National Park.

Operation Phase

Maen Hir South 'B' would be partially visible to the east of the B5111 beyond the drystone walling and adjoining field. There would be partial views of Field 256 (mitigation and enhancement area) to the left and centre of the view and partial views of Field 255 (mitigation and enhancement area) at close proximity beyond the drystone walling along the roadside. During the operation phase, the scale of effects are likely to be **Medium** (adverse) reducing to **Small** (adverse) once the embedded mitigation has established.
