

LEGEND

- PEIR Boundary
- Potential Areas for PV Arrays up to 3.5m in Height (Above Ground Level)
- Potential Areas for Mitigation and Enhancement, Cabling and Access
- Potential Areas for Project Substation and BESS up to 15m in Height (Above Ground Level)
- Potential Areas for 132kV Substations up to 7m in Height (Above Ground Level)
- Cable Route Corridor - area for 33kV/132kV cabling (including access) between the Solar PV Site which would exclude residential properties and their immediate surroundings and sensitive environmental receptors (where practicable)
- Highway Works - public highways where there is potential for works to facilitate construction traffic
- Water Resources Study Area

Water Framework Directive River Waterbody Catchments Overall Rating 2021

- Good
- Moderate
- Poor
- Bad
